

# Insulation retaining discs

A universal insulation retaining disc to suit most styles and size of wall ties

## Use

- A universally designed insulation retaining disc
- Suitable for general purpose, light duty and heavy duty applications

## Features and benefits

- Will fit most wall ties available from leading wall tie manufacturers
- Suitable for both fibre and rigid slab insulation
- Firm grip design that will not move on the wall tie

## Quality

- Satisfies all NHBC requirements
- Manufactured to BS EN ISO 9001 and BS EN ISO 14001
- Complies with all relevant Building Regulations
- Meets all relevant British Standards

## Material and colour choice

- Manufactured from polypropylene
- Available in red

## Products in the range

### Insulation retaining disc in red - Product IRD80R

Discs are bagged in 250's and boxed in 1000's. No part boxes are available.

## Installation advice

- Insulation retaining discs should be fitted to every wall tie for applications when insulation retainers are required
- Spacing and quantity calculations should be as wall tie guidance
- Consult latest NHBC Standards for required spacing
- 'Where partial cavity fill is to be used,' ties/discs should be spaced at 600mm centres horizontally and in vertical as well as horizontal rows, ie not staggered
- Retaining discs are clipped onto wall ties either before building in or in situ
- Due to the firm grip design the disc may require opening slightly to accept the wall tie
- It is recommended that the wall tie is held in position when the disc is offered and clipped in place

**Please see technical section for more details.**
